## Name of Product

## Coupling Agent VTMO

**Chemical Name:** Vinyl Trimethoxy Silane

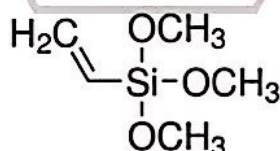

**Other Common Names:** A-171, KBM-1003,  
Z-6300

**CAS No.:** 2768-02-7

### TYPICAL PROPERTIES

Property	Specification	Result
Appearance	Colourless Transparent Liquid free from suspended particles	Complies
Assay	>99%	99.1
Density	0.93-0.99 g/cm <sup>3</sup>	0.97
Refractive Index	1.348-1.431 (at 25°C)	1.3910

Structure:

### APPLICATION:

- (1) Curing of Polymers (Cable Industry, sanitary pipes, etc)
- (2) Surface Modifier and Adhesion Promotor
- (3) Moisture Scavenger in Sealant Industry

### APPLIED INDUSTRIES

- Glass Fibre
- Rubber
- Coatings
- Glue

### SAFETY:

- May be harmful if inhaled or swallowed, should be handled with special care.
- Please use the appropriate safety equipment to avoid direct contact with eyes or skin.
- In case of exposure to the product, rinse immediately with plenty of water.
- Read and understand the Material Safety Data Sheet (MSDS)

### STORAGE:

HYCO VTMO should be stored in cool and dry place, away moisture and sunshine.

Recommended shelf life is 12 months when stored under ideal conditions.
